

HOW TO SPECIFY: DECOFORME

SPECIFYING HALLMARK DECORATIVE PRODUCTS

Hallmark Group has been a trusted partner to New Zealand's architectural and construction industries for over 25 years. Specifying Hallmark products provides you with peace of mind that you're specifying high quality products covered by extensive warranties and supported by a dedicated and experienced team of product engineers and project managers.

ABOUT

DecoForme is a pre-finished decorative batten with a moisture resistant MDF substrate and offers consistency of toning and the warmth of a timber look. It is a lightweight product and very simple to cut and install. Due to the construction of DecoForme it is a very stable product and does not have the typical issues associated with solid timber such as warp, twist, cracking and fading. The ease of installation and the many methods of install available saves time and labour on site, and in addition does not require maintenance over time (such as re-painting) which results in further savings.

INSTALLATION

Installation depends on application. Smaller profiles (31x31, 17x38) can be direct fixed using Gorilla FixALL High Tack Adhesive. We recommend using Scotch Extremely Strong Mounting Tape to hold the profiles in place while the glue sets. Larger profiles will require mechanical fixing. Please refer to the DecoForme fixing guide.

Please refer to the DecoForme product release document for further details and the FAQs on our website (the 'pricing and route to market tab') found at www.hallmarkgroup.co.nz/decoforme-faqs.
